

MODERN DESIGNS FOR MODERN IDEALS™

MADE[®] is not a manufacturer. We are a company of craftsmen, doing what we love. We build objects that yearn to be touched, are best seen up close, and are built by hand. We have no warehouse or assembly lines. We craft our wares in a modest studio in Portland, Oregon—building your furniture when you order it—flexible on size, materials and customization. Our solid woods and veneers are hand-selected, our components custom-made. This does not always come quickly or easily, but we enjoy the challenge. We hope you will enjoy your MADE furniture for generations to come.

bed-dia LOW	<ul style="list-style-type: none"> • <i>diamond tile bed-LOW</i> • solid wood construction • solid bracing and perforated plywood deck support mattress 	full 58" w x 81" d x 37" h
		queen 64" w x 86" d x 37" h
		king 80" w x 86" d x 37" h
		cal. king 76" w x 90" d x 37" h

details:

The Diamond Tile Bed's headboard is crafted from solid wood, "pillowed" diamond-shaped tiles. Each tile is individually glued in place with a 1/8" reveal between them, creating a visually stunning pattern. The legs and side rails are all made from solid wood, and the mattress is supported by solid cross rails and a plywood platform. The bed is finished on all sides, so it functions just as well against a wall or in the middle of a room. Standard in walnut or rift-sawn white oak. Custom sizing, materials and finishes available; please call for a custom quote.

MADE's tile beds are visually and tactically stunning. The Vista Tile Bed's headboard is crafted from solid wood tapered tiles. Each tile is individually glued in place with a 1/16" reveal between them, creating a distinct repetitive pattern. The legs and side rails are all made from solid wood, and the mattress is supported by solid cross rails and a plywood platform. The bed is finished on all sides, so it functions just as well against a wall or in the middle of a room. Standard in walnut or rift-sawn white oak. Custom sizing, materials and finishes available; please call for a custom quote.

The Cascade table's beauty lies within the simplicity of form and the highlighting of natural materials. Each table is hand-crafted using reclaimed beams recovered from old buildings and structures. Fir, hemlock, and spruce are all typical materials, and each beam is unique with its own history, checking, knots, and nail and bolt holes. We assemble the beams with steel rod and black metal spacers, creating an even 1/4" reveal between each of the components. We encourage you to use your imagination in configuring custom sizes and shapes of tables and benches using these blocks—please call for a custom quote.

details:

The Holman Cabinet's standout feature is the hand-routed, flush-inset drawer pulls. The carcass and drawer faces are made from custom-laid veneer panels, and the carcass is edged with a mitered solid face-frame, slightly arced inwards around the opening. The solid-wood legs and apron are constructed with traditional mortise and tenon joinery, ensuring that this cabinet will last for generations. Standard in walnut or rift-sawn white oak. Custom sizing, materials and finishes available; please call for a custom quote.

The Low-Down Media Cabinet is the perfect storage solution for modern electronics. Low to the floor, the height of the cabinet is ideal for TV viewing, and the interior shelves provide concealed storage for unsightly stereo components and cable boxes. The interior and back are perforated with vent and cord chase holes. Front sliding doors are made of 1/4" white acrylic. This piece is available in rift-sawn white oak or walnut, and custom materials and finishes are available upon request. Standard in walnut or rift-sawn white oak with white acrylic doors. Custom sizing, materials and finishes available; please call for a custom quote. **Options:** media drawer in one or both compartments, with inserts for dvd and cd storage : matching wood veneer over acrylic doors

The Axis Media Cabinet is a clean-lined solution for storing modern electronics. Low to the floor, the height of the cabinet is ideal for TV viewing, and the interior shelves provide concealed storage for stereo components and cable boxes. The cabinet is available in two configurations: a long cabinet with four media drawers and two sliding doors, or a more compact unit with three sliding doors. Both pieces are supported by solid plate stainless steel legs. The interior and back are perforated with vent and cord chase holes. Standard in walnut or rift-sawn white oak. Custom sizing, materials and finishes available; please call for a custom quote. **Options:** (ax-mc1) media drawer in either compartment, with inserts for dvd and cd storage

The Plateau Bench is a multi-functional piece that can serve as a coffee table, a comfortable seat, or an ottoman on which to rest one's feet. The rectilinear stainless steel legs and mitered joinery enhance the clean, pared-down lines of the piece. Construction is 1 3/4"-thick solid lumber with mortise and tenon joinery for ultimate durability. Standard in walnut or rift-sawn white oak, black leather upholstery. Custom sizing, materials and finishes available; please call for a custom quote.
